SHERIFF AND DEPUTY

Captured and Held as Hostages by Escaped Convicts From Leavenworth.

EXCITING TIME AT A FARMHOUSE

With the Officers and a Woman as a Shield, the Desperadoes Walk Through a Cordon of Police. Several Persons Injured.

Topeka, Kan., Nov. 11.—Some farmer boys near Pauline, five miles south of this city, learned two escaped convicts from Leavenworth were in the neighborhood. Hastily forming a posse, armed with target rifles, pistols and clubs, they gave chase. Neither of the convicts was armed, and they were unable to make a stand. Later Sheriff Cook and Deputy Williams arrived. Coming upon the convicts both officers fired, wounding the men but not disabling them. The convicts then fled through a small opening in the timber and ran into the house of Farmer Wooster. Sheriff Cook telegraphed to Topeka for assistance and then took up the chase. Thinking the convicts had run around the house, Cook darted through the open door, intending to surprise them at the rear door. But instead of this the convicts had gone into the house and the officer almost fell into their arms. Sheriff Cook was ordered to give up his gun, which he did. Deputy Williams by this time had reached the house and entered without knowing what had happened inside, and he, too, was made captive by the convicts. In the meantime Chief Stahl of Topeka with eight officers were on their way. They arrived at the Wooster house about an hour after the officers had been imprisoned. Chief Stahl immediately began negotiations with the convicts to give up their prisoners and to surrender themselves, but the convicts only laughed. Farmer Wooster then managed to get a gun and was about to make an attack on the convicts, when one of them laid him low with a blow from the butt of a revolver taken from one of their captives. The convicts broke Wooster's right hand and cut an ugly gash in his head.

One of the convicts told Sheriff Cook that he would be killed if he made the slightest move toward their capture. In the meantime the police officers on the outside had surrounded the building, but were afraid to make a move for fear that Cook and Williams would suffer. Mrs. Wooster had fainted during the excitement. She finally revived, and then the bold convicts placed the woman and Sheriff Cook in front of them as shields and made for the door.

Then, after exacting a promise from the sheriff that he would not permit any of the officers outside to fire on them, they started for the open. As they left the house, the frightened farmer's wife and the submissive sheriff before them, the convicts passed between a cordon of police, who could have easily captured them, and started for the railroad track. The sheriff had in turn exacted a promise from the police that they would not molest the convicts, and they did not.

After covering a considerable distance down the track the convicts suddenly disappeared through a hedge fence, bidding the officers a mocking farewell. The convicts had secured a good start before the officers had recovered from their surprise. Then some of the policemen wanted to pursue, but Sheriff Cook would not permit it, as he had promised the convicts immunity from arrest. Later a posse started in pursuit.

General Lukban's Terms.

Manilla, Nov. 11.—According to advices from Catabalogan, capital of the island of Samar, the insurgent leader Lukban has sent a message to General Smith declaring that he will not listen to negotiations for surrender until all the Americans have withdrawn from the Gandara valley. General Smith has ordered every American soldier in the island of Samar and the island of Leyte never to be without arms, even at meal time. He is determined that there shall be no more surprises, and commanding officers will be held responsible. General Smith also directs that scouting must continue incessantly and that all rice and hemp captured must be destroyed. He considers the capture of Lukban only a question of a very short time.

Paymaster Robbed.

Panacola, Fla., Nov. 11.—Paymaster Stevens of the United States army arrived in this place from Atlanta, and before leaving that city placed in a hand satchel 200 silver dollars and \$4,800 in paper money for the purpose of paying the several hundred artillerymen at Fort Barancas and McKen their salaries for the past month. When he reached the fort here he opened his grip and found all the paper money had been abstracted. Pay-

master Stevens thinks some professional pickpockets followed him and relieved him during the trip. He can not recall a single incident of the trip that would lead to anything on the robbery, but has an idea the money was taken before he left Atlanta.

MISS HERRON TO WED.

Will Eschew the Customary Rites of Hymen's Sanctuary.

New York, Nov. 11.—Miss Margaret Evelyn Herron, sister of Professor George D. Herron, the socialist agitator, has announced her engagement to marry Dr. Henri Verner Berghall of Manistee, Mich., and the wedding will be conducted on the same plan which made sensational the marriage of Professor Herron to Miss Carrie Rand. Miss Herron, who is now at Metuchen, N. J., is a firm believer in what she terms "the new and simple form of marriage," which is without the usual matrimonial vows and with none of the ritual or formulas of the church. She heartily approves the way her brother wedded Miss Rand. Miss Herron said that the man she is to marry is a Socialist, a native of Sweden and a practicing physician in Michigan.

Details have not yet been entirely arranged, but Miss Herron expects that Rev. William T. Browne of Plymouth Congregational church, Rochester, N. Y., the clergyman in attendance at her brother's wedding, will be invited to attend her marriage with Dr. Berghall.

Canal Commission's Report.

Washington, Nov. 11.—The isthmian canal commission will meet Tuesday to add the finishing touches to its report. It can be stated by authority that the commission has not reported up to this time, in favor either of the Nicaraguan or of the Panama project. Consequently, the question has not figured before the cabinet and the administration has not expressed a preference for either route. It is expected the commission will not undertake either to accept or to reject the proposition of President Hulin, looking to the acquisition by this government of the Panama Canal company's concessions. However, it will lay the proposition before the president and congress. It can be stated also by authority that in view of the well understood favor with which congress heretofore regarded the Nicaraguan route, the decision of the executive departments will be in favor of that project.

Thompson to Be Prosecuted.

Port Huron, Mich., Nov. 11.—It develops that if Charles D. Thompson, ex-supreme finance keeper of the supreme tent, Knights of the Macabees, who embezzled \$60,000 from the order, is to be prosecuted, the Macabees officials will have to take the initiative. By the terms of Thompson's bond with the Fidelity and Deposit company of Baltimore, which was in force when most of the money was taken, the organization must apply for the warrant in the event of a default and prosecute with the assistance of the bonding company. Supreme Counselor D. D. Aitken has all the necessary papers and Thompson's arrest is expected soon. Dr. L. E. Sisler of Akron, O., was selected to succeed Thompson as finance keeper.

France's American School.

Paris, Nov. 11.—A decree of the minister of commerce, M. Millerand will be published in the official journal appointing a commission in which France proposes the organization and establishment of an industrial school in the United States for the study of American industrial methods. The commission, which is composed of 14 members, is presided over by Senator Plorrier and includes M. Boquet, director in chief of the department of technical instruction in the ministry of commerce and the heads of the state and private industrial institutions.

Shorter Than Suez Route.

New York, Nov. 11.—A consignment of mail which left Sydney, Australia, Oct. 15, for London, England, by the American route, arrived in this city and was dispatched on the steamship Umbria for London. The mail arrived on the steamship Venture at San Francisco Nov. 4 and was carried across the continent by regular mail trains. The time consumed in transmitting mail from Sydney to London will be about 31 days, a saving of four days over the Suez route.

Electric Mule Enjoined.

Hamilton, O., Nov. 11.—Injunction proceedings were begun by Samuel A. Millikin et al. to prevent the Miami and Erie Canal Transportation company constructing its system along their properties. They allege that the company under a grant to propel canal boats by electricity is building a railroad on the canal bank over which to operate trains.

Berlin, Nov. 11.—Prince Ludwig of Bavaria was thrown out of his cart near Nymphenburg castle, after colliding with a tree. His left shoulder was put out of joint.

MAY KILL MISS STONE

Brigands Fear She Will Make Damaging Revelations If Released.

THE CHASE STILL CONTINUES.

Bulgarian Government to Be Held Responsible For the Life of the Missionary—American Consul Makes Representations.

Sofia, Bulgaria, Nov. 11.—Information has been received here from Dounitza that the band of brigands holding captive Miss Ellen M. Stone, the American missionary, called about a fortnight ago at the village of Smetchevo, and subsequently proceeded to the monastery of Rilto, but the movements of the troops compelled the brigands to flee toward the frontier, where they are now in hiding. It is also asserted that the brigands have recently been treating Miss Stone with more severity in order to exercise pressure and to compel a more ready acceptance of their conditions. Consul General Dickinson is inflexible. He insists that the surrender of Miss Stone must precede or be simultaneous with the payment of the ransom.

Dickinson's attitude is justified by the known determination of some members of the band, particularly the captain, Yanne Sanadansky, to kill Miss Stone and her companion as soon as the ransom is received, owing to the fact that the captives have now acquired information concerning the secret committees. Competent persons, however, express the opinion that the cupidty of the brigands will overcome their fear of revelations, and all such approve the declaration of Mr. Dickinson.

Mr. Dickinson has made energetic representations to the Bulgarian government against the movements of the Bulgarian troops, reproaching the officials with the fact that, notwithstanding their solemn promises to give all assistance in their power, their action was embarrassing the negotiations, retarding a settlement and placing in jeopardy the life of Miss Stone. He made a definite declaration that the Bulgarian government would be held responsible for the death of Miss Stone and of all the consequences of her death, should it be proved that the attitude of the Bulgarian government forced the brigands to kill their captives.

Caused Excitement.

Willemstad, Island of Curacao, Nov. 11.—Advices received here from Capacho Viejo say that the report from President Castro to his brother, Celestino Castro, at San Cristobal, to the effect that the United States government "insists upon mediating between Venezuela and Colombia," caused the greatest excitement among the troops on the frontier. General Uribe Uribe and General Modesto Castro immediately set out for San Cristobal to obtain details. It seems that General Uribe Uribe refused to believe the report, declaring that he had no fears as to the future of the liberal cause, because President Castro had given him a cast-iron pledge not to forsake him. "Should President Castro prove untrue to the liberal cause," exclaimed General Uribe Uribe, "the result would be his ruin. The war will enter Colombia before Christmas."

Kitchener's Scheme.

Cape Town, Nov. 11.—Lord Kitchener and Sir John Gordon Sprigg (the Cape premier) have arranged a scheme for the expulsion of the invaders from Cape Colony. A joint commission of imperial and colonial military chiefs has been sitting here for some days past to draft a scheme. It is understood that this provides for the colony taking a large share in the future campaign and contributing largely toward its cost. Apparently a levy of loyalists en masse is the idea involved.

Dangerous Fire.

Newcastle, Pa., Nov. 11.—The plant of the Lawrence Ice and Storage company was completely gutted by fire. The damage amounts to fully \$150,000. The plant was only completed and operations begun this fall, and all the expensive machinery was destroyed, only the bare walls being left standing. More than 28,000 pounds of ammonia was stored in the plant, and the fears of explosion hindered the firemen. The fire started in the oil room and the watchman tried to fight the blaze alone until too late.

St. Louis, Nov. 11.—John Callahan, who was arrested in the Union Iron foundry after an attempt to hold up the night watchman, Michael Henneberger, has confessed to Chief of Detectives Desmond that he was one of the three men who robbed a bank at Turon, Reno county, Kan., in October, 1899. Callahan says his home is in Cleveland.

LOST MINE FOUND.

Was a Source of Wealth For Ancient Inhabitants of Mexico.

Quaymas, Mex., Nov. 11.—The lost Tayapa mines, celebrated in Spanish annals as having produced \$80,000,000 in silver and gold in the 17th century, and which are described on Spanish maps as being situated in northwestern Mexico, about 50 leagues from the sea near Dos Pilaes, have been found. As far back as 1589 Robert D'Aumale, a celebrated French expert declared the location of the Clenguita in the Sahuria district, Sonora, to be identical with the lost Tayapa. The Spanish owners are said to have been murdered by their Indian slaves near the close of the seventeenth century and it is stated that for 100 years thereafter no one was allowed to enter that region. Explorers who have recently returned from Clenguita report having discovered the old stone prisons, old smelters and also stupendous work accomplished by ancients.

Battle With Filipinos.

Manilla, Nov. 11.—Advices from Catabalogan, capital of Samar island, report that Major Waller attacked a force of Filipinos occupying a strong position at Solton, two 3-inch guns being used to shell the stronghold. Throughout the first day the Filipinos held the place, but Friday Major Waller renewed the attack and after a sharp engagement captured the position. Two marines of the attacking force and 26 natives were killed. Major Waller destroyed the quarters and seventy houses. General Smith has issued orders forbidding the purchase of hemp in the island of Leyte except in small quantities, which purchases must be under the supervision of the military authorities. All the ports in Leyte are closed and traffic is forbidden where it cannot be supervised by the military.

Beresford's Ambition.

London, Nov. 11.—The government's naval policy is soon likely to be brought prominently and perhaps unpleasantly to public notice, as Rear Admiral Lord Charles Beresford will shortly be relieved of his post as second in command of the Mediterranean fleet and is coming home to enter parliament at the earliest opportunity. Lord Beresford intends to devote his energies to a political career until it comes his turn to command the channel squadron, which has always been the height of his ambition. While on duty in the Mediterranean, Lord Beresford has won every ship battle in which he was engaged.

Plain Talk to Cullom.

Washington, Nov. 11.—The president declared to Senator Cullom of Illinois that in making promotions to brigadier generalships soon to become vacant he would be governed entirely by the record, that it is his intention to promote those whose records showed them to be most deserving of promotion and that neither personal considerations nor influence would count. Senator Cullom called on behalf of Major Ballance, who went into the army from Peoria and Major McClelland, a son of General McClelland. The latter was General Shafter's adjutant during the Santiago campaign.

Freight Smashup.

Youngstown, O., Nov. 11.—In a rear-end collision on the Pittsburg and Western railroad at Lowellville, eight miles east of here, J. T. Shennel, brakeman of Pittsburg, was killed and Engineer Gates and Brakeman Conerty were injured. The first section of a freight train was delayed by a broken coupling and the second section ran into it, wrecking the engines and trains.

Tragedy in Church.

Hopkinsville, Ky., Nov. 11.—At a colored church near Hopkinsville, during services, Henry Davie quarreled with Abe Allen, with whom he was occupying the same pew. Davie shot at Allen with his pistol. The bullet missed Allen but pierced the heart of Jerry Wilson, on the opposite side of church, and killed him instantly. Davie was arrested.

W. & L. E. Finances.

New York, Nov. 11.—The report of the Wheeling and Lake Erie railroad company for the year ending June 30 shows that gross earnings were \$2,954,100, an increase of \$284,000; operating expenses were \$2,076,500, an increase of \$171,500. After payment of taxes, rentals and interest on bonds, there was left a balance of \$146,950.

Cedar Rapids, Nov. 11.—Burglars made an attempt to rob the state bank of Coggon, 25 miles from this city. The outer vault was blown but the men evidently were frightened away before the inner vault was forced.

German Battleship Launched.

Stettin, Nov. 11.—The German battleship Mecklinburg was launched here in the presence of the Grand Duke of Mecklinburg-Schwerin and the Grand Duchess Marie of Mecklinburg-Schwerin.

TURK TOES THE MARK

Original and Fresh Demands of the French Accepted by the Porte.

IRADE SIGNED TO THIS EFFECT.

Diplomatic Negotiations Ordered Resumed and the Warships Prepare to Leave the Invested Ports. Diplomatic Victory.

Paris, Nov. 11.—The French foreign office has announced that the sultan has signed an irade for the execution of his engagements with the French government, and that the Franco-Turkish dispute is now at an end. Tewfik Pasha, Ottoman minister of foreign affairs, wrote a letter to M. Bapst, councillor of the French embassy in Constantinople, notifying him of the signing of the irade, which, while settling the original French demands, also accepts the fresh demands, together with an additional clause by which sultan pledges himself to consider as authorized in full right the foundations, extensions, constructions and repairs of the schools and religious and hospital establishments which France may desire to carry out if the porte is advised of her intentions and makes no objection within five months.

France has thus far received full satisfaction and M. Delcasse, on the receipt of M. Bapst's dispatch, telegraphed him to inform Tewfik Pasha that diplomatic relations had been resumed and that M. Bapst should consider himself as regularly charged with the affairs of the embassy.

Instructions were also sent to Admiral Caillaud at Mytilene to disembark the marines and to return to Greek waters, which is understood to mean the vichage of the island of Syra. Admiral Caillaud will remain in the Levant some time longer. M. Constant, the French ambassador, will return to Constantinople very shortly. The additional clause was concluded at the request of France in order to prevent future difficulties such as the Turkish provincial authorities have often raised, either on their own initiative or in consequence of instigation by the porte. The Temps describes the result as "a brilliant victory for French diplomacy."

Ohio Election Returns.

Cincinnati, Nov. 11.—With almost half of the official returns from the 88 counties in Ohio received, it is estimated that the total vote may be 100,000 less than for governor two years ago, when 920,872 votes were cast, and almost a quarter of a million less than for president last year, when the total vote of Ohio was 1,049,121. Notwithstanding the increase in population during the past 13 years, the total vote will likely be much less than for president in 1888, when it was 841,911, and probably less than has been cast for governor since that time, with a single exception. The returns show that the greatest shortage was among the Democrats outside of the cities, and it is still variously attributed to the silver question, prevailing prosperity, the death of McKinley, endorsement of President Roosevelt, Governor Nash and Senator Foraker and other causes.

Anniversary of Tippecanoe.

Cincinnati, Nov. 11.—The anniversary of the Battle of Tippecanoe was celebrated with a very large attendance at the new tomb of General William Henry Harrison at North Bend, O., near this city. The late President Benjamin Harrison before his death had a new tomb built over the grave of his illustrious grandfather. Among the excursionists from this city were over 100 German singers. Mayor Gleason of Cleves delivered the welcome address, which was responded to by Judge Bode of Cincinnati, the principal address being by Congressman Jacob H. Brownwell of Cincinnati.

First McKinley Monument.

Tower, Minn., Nov. 11.—To this village belongs the honor of having erected the first monument in honor of William McKinley. Thousands of people from all over the state and the entire northwest were on hand at the unveiling. When the monument was unveiled all the bands that Tower and surrounding country could muster played together "Nearer, My God, to Thee." The chief speaker was Governor Van Sant.

Ohio Sportsman Killed.

Bangor, Me., Nov. 11.—W. C. Tucky of Collinwood, O., the sportsman who was killed at Lily Bay, near Greenville, by J. C. Hostatler of Toledo, O., met death in a most peculiar manner. The two men left camp and soon struck a deer trail. In half an hour a deer appeared. Hostatler lifted his rifle and fired. The bullet struck the deer, but glanced off and went through Tucky's head, killing him instantly.

CLAIM \$45,000 DAMAGES.

Suits Filed at Newport on Behalf of Boys Killed and Injured at This Point.

[Times-Star.]

Three damage suits for large amounts were filed Saturday in the Circuit Court, Newport. Geo. Veith, administrator of Win. Strausburg and Charles Dunkley, killed at Maysville in July last by a C. and O. train running them down, filed suit against the Maysville and Big Sandy railroad for \$15,000 damages in each case; and the same as the next best friend of Elmer McCabe, who lost a leg in the same accident, brought an action for a like amount.

Similar suits for a like amount were filed some time ago against the C. and O. railroad company, as owners of the rolling stock on the road, and the suits Saturday are against the company controlling the tracks and right of way.

It will be remembered the lads, who are all residents of Newport, were stealing a ride on a freight train, and when they left the train at Maysville they stepped on the main track directly in front of the fast flyer.

The Times-Star is in error in its principal statement as to the manner in which the accident happened. The unfortunate young men beat their way to Maysville on a train, and then after it had left they sat down on the main track just west of the depot, where they fell asleep and were run over an hour or two later by an eastbound freight train. There can be no question that the boys were directly responsible for the accident.

Mr. Campbell D. Black, of Cincinnati, and Miss Adah B. Frazer, of Covington, were secretly married some time ago. The groom is a relative of Mrs. Arthur F. Curran, of Dover.

At Covington James W. Thomas' home was entered by thieves one night last week who got away with \$42 in money belonging to Mrs. Thomas and two gold watches of Mr. Thomas and his son Clarence, valued at \$100. The family recently moved from Dover.

PITHY POINTS.

It used to be sung there's no place like home, but with Taylor it goes "there's no place like jailany."

Taylor will feel compelled to give Kentucky a wider berth than ever now that she has been so pronounced politically.

It's hardly possible that Durbin "deplores the assassination" of Gov. Goebel nearly so much as Powers or Yontsey or even Taylor.

How would it do for Durbin to send a Hoosier jury to try Taylor, as he seems to have so little opinion of the average Kentucky jury?

Taylor doesn't care in what way Durbin refuses to deliver him up to the Kentucky authorities, or what authorities he quotes for not doing so, so long as he is allowed to roost in "jailany."

Taylor could have given a better reason than any Durbin gave for not desiring to be returned to his native land; and it would have been that he was afraid he would meet with the just punishment for his misdeeds.

If Durbin believes, as he says he does, that there is no evidence to implicate Taylor in Goebel's assassination why does he so persistently refuse to deliver him on Governor Beckham's requisition? He can't be hurt if he has done nothing.

JEFFRIES AND RUHLIN

Ready For the Gong Friday Night.
Rules to Govern.

San Francisco, Nov. 11.—Both Jeffries and Ruhlín are ready for the gong to sound Friday night. They are doing light work in the gymnasium and on the road to keep in condition. Delaney and Madden have had a conference with Referee Harry Corbett over the rules that will govern the fight. It has been agreed that the men in a clinch shall break away at the order of the referee, and that they shall protect themselves in getting away. The referee, however, will interpret the rules so that the contest will not develop into a hugging match. The fight will be preceded by two four-round preliminaries between local fighters. It is planned to bring the big men into the ring at 9:15 p. m. The betting is light yet, but Ruhlín seems to be gaining slightly in favor and has some backing at 2 to 1.

It Is So Easy to Run a Newspaper!

To run a newspaper all a fellow has to do is to be able to write poems, discuss the tariff and money questions, umpire a baseball game, report a wedding, saw wood, beat a lawyer, describe a fire so that the reader will shed their wraps, make a dollar do the work of ten, shine at a solace, address horticulture societies, measure calico, abuse the liquor habit, test whisky, subscribe to charity, go without meals, attack free silver, defend bimetalism, sneer at snobbery, wear diamonds, invent advertisements, overlook scandal, praise babies, delight pumpkin raisers, minister to the afflicted, heal the disgruntled, fight to a finish, publish a doctor's resolutions denouncing a lawyer, set type, mold opinions, sweep the office, speak at prayer meetings and stand in with everybody and everything.—Hartford City Times.

A lazy liver may be only a tired liver, or a starved liver. A stick is all right for the back of a lazy man. But it would be a savage as well as a stupid thing to beat a weary man or a starving man because he lagged in his work. So in treating the lagging liver it is a great mistake to lash it with drastic drugs. In ninety-nine cases out of a hundred a torpid or sluggish liver is but a symptom of an ill-nourished body, whose organs are weary with overwork. Let your liver alone. Start with the stomach and its allied organs of digestion and nutrition. Put them in proper working order, and see how quickly your liver will become active and energetic. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood making glands, cleanses the system from the poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

That's an Editor.

What is an editor? An editor is one who reads newspapers, selects miscellany, writes articles on all subjects, sets type, reads proof, works at press, folds, packs and directs papers and sometimes carries them, prints jobs, runs on errands, saws wood, works in a garden, takes care of babies and rocks the cradle, talks to all his patrons who call, patiently receives blame for a thousand things that never were nor never can be done, has scarce time to enjoy nature's restorer, sleep, and esteems himself particularly fortunate if he is not assailed by some unprincipled denagogue who loves puppet shows and hires the rabble with a glass of brandy to raise him to some petty office. That's an editor.—Brooklyn Times.

To the Public!

Both our experience and that of the Power Laundry Co., whose plant we have purchased, have convinced us that the system of doing a cash laundry business which prevails in the larger cities is a necessity to a successful continuation of our business. Our patrons who have so loyally stood by a home industry will therefore understand that on and after Wednesday, Nov. 13th, 1901, when cash is required on delivery of packages there will positively be no exception to the rule; all will be treated exactly alike.

Thanking the public for past favors and asking a continuation thereof, we remain, respectfully,
